PROFESSIONAL SUMMARY

Results-driven Lead BI Developer with 5 years of experience in business intelligence, SQL development, enterprise reporting, ETL automation, and database solutions. Hands-on expertise in Power BI, SQL Server, MySQL, myDBR Reporting, Talend ETL, and Data Warehousing delivering production reporting across Finance, HR, Payroll, and Operations.

Experienced in BI team management, direct client engagement, requirements gathering, and end-to-end BI delivery with UK-based stakeholders. Delivered Excel-based payroll workflow automation and contributed to multi-tenant database design, module-wise ERDs, and automated MySQL 5-to-MySQL 8 migrations.

TECHNICAL SKILLS

Business Intelligence & Reporting: Power BI, DAX, Power Query, KPI Dashboards, Data Modeling, myDBR Reporting, Microsoft Excel, Reporting Automation

Databases & SQL Development: Microsoft SQL Server, MySQL 5/8, Advanced SQL, Stored Procedures, Functions, Views, CTEs, Window Functions, Subqueries, Query Optimization, Performance Tuning

ETL & Data Integration: Talend ETL, ETL Automation, Data Extraction, Transformation & Loading, Source-to-Target Mapping, Data Validation & Reconciliation

Data Warehousing & Data Modeling: Data Warehousing Concepts, Dimensional Modeling, Star Schema, Fact & Dimension Tables, Relational Database Design, Multi-Tenant Database Design, ERDs

Leadership & Business Analysis: Team Management, Technical Leadership, Direct Client Communication, Requirements Gathering, Stakeholder Management, Task Allocation, Project Delivery

PROFESSIONAL EXPERIENCE

HALO INFORMATICS | UK-Based

Software and technology solutions for the UK health and social care sector, including workforce management, payroll, finance, care operations, and enterprise reporting.

Lead BI Developer | July 2024 – Present

- Lead and manage the BI development team through task allocation, technical guidance, priority setting, issue resolution, and BI solution delivery.
- Engage directly with UK clients and stakeholders to gather and translate business requirements into technical specifications and reporting solutions.
- Design, develop, and maintain production Power BI dashboards across Finance, HR, Payroll, and Operations for KPI monitoring and management reporting.
- Automated manual Excel-based payroll workflows with centralized SQL-driven BI reports, reducing repetitive data preparation and streamlining Finance operations.
- Develop and optimize complex SQL queries, stored procedures, functions, and views for financial calculations and operational reporting.
- Designed multi-tenant database schemas and module-wise ERDs defining database structures, relationships, and dependencies for application modernization.
- Developed and executed automated Talend ETL migration workflows with the internal team for MySQL 5-to-MySQL 8 migration, mapping, transformations, and validation.
- Manage end-to-end BI delivery from requirements and development through testing, reconciliation, stakeholder validation, and production support; maintain myDBR reporting solutions for Finance and Operations.

HALO INFORMATICS | Continued

Senior BI Developer | July 2023 – June 2024

- Developed and maintained production Power BI dashboards and SQL-based reports across Finance, HR, and Operations.
- Designed and optimized SQL queries, stored procedures, functions, and views supporting analytical and reporting requirements.
- Built and maintained production Talend ETL jobs for data extraction, transformation, and integration.
- Developed customized myDBR reporting solutions and resolved reporting discrepancies, data quality issues, and SQL performance problems.

STELLARSOFT

IT consulting and software development company supporting international clients, including UK-based Imaginera, a technology provider for insurance and reinsurance.

SQL Engineer | October 2021 – June 2023

- Developed, maintained, and optimized SQL queries and database objects for applications and business reporting.
- Designed stored procedures, functions, and views to implement business logic and data processing.
- Performed SQL performance tuning, query optimization, and troubleshooting to support application reliability.
- Supported database development, data migration, and data integrity validation and collaborated with technical teams on SQL-based solutions.

SELECTED PROJECTS & ACHIEVEMENTS

Finance & Payroll Reporting Automation

Automated manual Excel-based payroll reporting with centralized SQL-driven workflows to reduce repetitive preparation and improve reporting consistency.

Multi-Tenant Database Design & Automated Data Migration

Developed module-wise ERDs and multi-tenant database schemas and implemented automated Talend ETL migration workflows with the internal team for MySQL 5-to-MySQL 8 modernization.

Enterprise BI Dashboards & Operational Reporting

Delivered production Power BI dashboards and myDBR reports supporting Finance, HR, Payroll, workforce management, and operations.

EDUCATION

Bachelor of Science in Computer Science | Gomal University, Dera Ismail Khan | CGPA: 3.67
